

RushHour Karting *Line of the Track*

On all turns, you should just *FEATHER* the gas before and after the turn.
Only use the brakes if traffic is in front of you!

Each turn, start on the *OUTSIDE* of that turn, and then drive *INTO* the turn.

**START / STOP
TIMING LINE**

TURN 1

SUPERSPEED!

SWEEPER

CHICANE

And one last piece of advice, always KEEP THE KART POINTED IN THE DIRECTION YOU WANT TO GO. If you hear the tires squealing, correct yourself, because you are not following the above rule!

Now go race, and Good Luck!

HAIRPIN

TURN 2

BACKSTRETCH

The Chicane is by the trickiest part of the entire track, How you take the Chicane dictates how you will take the rest of the track.

So, take it *SLOW* and *EASY* entering and exiting the Chicane.

As soon as you have cleared the Chicane, *this is the SUPERSPEED, which is the fastest part of the track! GUN IT!*

'Til you reach *TURN 1*, go to outside, *FEATHERING* the gas, then cut it into *TURN 1*, and accelerate again.
